

Dear F.C.C.

I would like to keep the translator stations on the air. I listen to two Christian radio stations that are on translators all across the states of Kansas, Oklahoma and Texas. One is the K-LOVE net-work and the other is the LOVE Station KLVV. I depend on these stations to provide me with the only kind of music that I like to listen to and news from a Christian perspective. And it comes with no Advertisements to disturb or distract me. I can listen to the same DJ's and news / weather reporters everywhere I travel. I go to Hospitals and Imaging centers across three states and spend many hours behind the wheel. I need these stations to help me arrive calm, refreshed and ready go to work for long hours Solving problems and doing Calibrations. Please do not take my stations from me. Plus as I drive, I see many other cars with bumper stickers for these stations, so I know that there are thousands of other listeners in all these areas that listen to and depend on these stations just like me, and would miss these translators and be hurting if they where silenced.

THANK YOU      C.D.Bensinger
